

Tinvio Frontend Case (Intern)

Time Limit: 48 hours

Objective: You are tasked to create a frontend single page app (website) with the following mock reference to showcase Leanne Graham's user details and posts. Her information and posts are updated frequently and her data is provided through an API service. Assets required to style the page is provided.

Optional Tasks:

The following are possible improvements you may choose to implement:

1. Use React/Typescript in your implementation
2. Add a visual loader when your data is loading
3. Add UI to allow us to switch between users in the list
(See *typicode implementation to extract post by userId*)
4. Mobile responsiveness
5. Host the website for preview

Additional Resources:

<https://jsonplaceholder.typicode.com>

<https://www.npmjs.com/package/axios>

Submission Instructions:

1. Create a public git repository and commit your code submission
2. Include a README file within the repository which describes:
 - a. Steps required to run your application
 - b. All objectives that you have attempted
3. Email the link to repository to: sihao@tinvio.com for assessment

API:
